

TASK – 4 { PART – A}
(DRAFT TWO PROFESSIONAL EMAILS)

Email 1

FROM: swastika.25boe10112@vitbhopal.ac.in
TO: programchair@vitbhopal.ac.in
SUBJECT: Request for extension on assignment submission

Dear Program Chair,
I hope this letter finds you in good health.

I am writing this letter to request an extension on the Biochemistry Assignment that was scheduled to be submitted on 24th March 2026. In the last few days, I have been facing a problem of several overlapping submissions of different subjects, which has affected my work in such a manner that I am unable to deliver work of the quality that I am capable of producing.

I am committed to delivering quality work, and I am sure that if I am granted an extension up to 31st March 2026, I will be able to deliver the assignment to the best of my abilities.

Although I am aware of the fact that deadlines have to be met, and hence I have managed my time properly, I would like to express my sincere gratitude for granting me an extension.

Yours sincerely,
Swastika Acharya (25BOE10112)
B.Tech Bioengineering

Email 2

FROM: swastika.25boe10112@vitbhopal.ac.in
TO: coordinator@gmail.com
SUBJECT: Request for extension on assignment submission

Dear Coordinator,
I hope you are doing well.

My name is Swastika Acharya, a first-year student pursuing a degree at VIT Bhopal University. I came across your organization while exploring work in the exciting world of AI in healthcare. There's so much potential for positive change and innovation. Let's explore how advancements in this field can make a real difference in people's lives and inspire us all to keep pushing boundaries. I found your work genuinely aligned with what I want to build my career around.

Instead of just applying blindly, I wanted to reach out directly. I am currently building my skills in Python, basic machine learning, and prosthetics, and I'm looking for an opportunity where I can learn by contributing to real projects.

If there are any internship opportunities this summer, I would be grateful to be considered. Even a short-term or project-based role would mean a lot in helping me gain practical exposure.

Thank you for your time. I'd really appreciate the chance to connect.

Warm regards,
Swastika Acharya
